

SJ-EX820F-SL

4-door fridge freezer with Hybrid Cooling system, AG+ /CU odor absorber and an unique J-Tech Inverter

Main specifications

- Total net capacity: 605 liters
- Fridge capacity: 394 liters
- Freezer capacity: 211 liters
- Climatic class: T (16°C-43°C)
- **Low noise level: 36dB(A) only**

Main features

- **Energy class A++**
- **Hybrid Cooling System in fridge**
- No Frost System in freezer
- **Smart Defrost System**
 - Flexible control through the food defrosting level monitoring
 - More efficient and accurate temperature control
- **Inverter compressor (J-Tech Inverter technology)**
- Elegant door handle at the full door height
- Electronic temperature control
- Lowest temperature indicator (OK sign)
- **Ag+ CU Nano – maintenance free antibacterial odor absorber increasing the air purity compared by the other equipment on the market**
- LED lighting in fridge compartment
- **Magnetic door seals assuring high compartment tightness**
- **Sharp worldwide unique patented door opening mechanism**

Functions

- Extra Cool – extra cooling function for quick food and drink cooling down to 0 C.
- Express Freezing – reduces food freezing time
- Express Cool – ideal for quick cooling of food and drinks
- Open door alarm

Fridge compartment equipment

- Tempered glass shelves (2 pcs.)
- Tempered glass shelf above the fridge compartments
- Sliding fruit and vegetable container with a cover
- Fresh food compartments (upper and lower)
- Fridge door equipment
 - Door pockets (3 pcs.)
 - Universal pockets - full door width (2 pcs.)
 - Egg tray
 - Bottle Pocket
 - Large door pocket (even 5 liters)

Freezer compartment equipment

- Small drawers (3 pcs.)
- Large drawers (2 pcs.)
- Two Twin Twist Off ice cube makers with containers

Other

- Easy relocation thanks to 4 casters

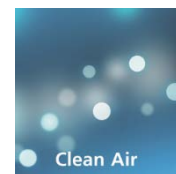

Additional information and photos

Hybrid Cooling System protects foods against excessive drying and overcooling. It ensures homogenous temperature distribution in the fridge compartment. As a result, food can be kept longer, preserving its freshness. Amount of food waste and money expenses are reduced.

The compressor rotation speed is controlled precisely depending on the conditions inside and around the fridge. Thanks to their frequent sampling, there are perfect conditions for food storage inside Sharp fridges and the device is quiet and saves the energy expenses. Thanks to J-Tech Inverter technology, **fridge consumes 20% less energy than previous models and with the 36dB(A) noise level is one of the most silent devices on the market.**

Ag+ CU Nano odor absorber

Maintenance free antibacterial odor absorber increasing the air purity compared by the other equipment on the market. Combination of two elements - silver and copper has increased efficiency of removal of a larger number of bacteria and fungi, resulting in the food storage time increase.

Control panel with electronic temperature and other functions' control

Effective fridge compartment and door pockets usage

Special compartments for quick food and drink cooling

Twin Ice Cube makers with ice containers

Clear drawer iconography for a convenient food storage in both fridge and freezer compartments

Multipoint LED lighting increasing brightness inside the compartment
